

VTI Instruments Corporation

PRECISION INSTRUMENTATION AND TEST SYSTEMS FOR THE WORLD'S MOST DEMANDING TEST APPLICATIONS

VTI Instruments Corporation

INTEGRATED DATA ACQUISITION, DISTRIBUTION & CONTROL

Leading Supplier of
Data Acquisition
Hardware and Software

- Industry Leading Data Acquisition and Precision Instrumentation Provider
- Globally Ranked 6th by Frost & Sullivan
- Worldwide Sales, Service & Support

Design and Deliver Precision
Modular Instrumentation and
Data Acquisition Systems

- Electronic Test
- Embedded Electronic Applications
- Mechanical / Environmental Monitoring & Test

Serve High Reliability Markets
Where Measurement
Performance is Critical

- Military / aerospace
- Energy / power generation
- High-end consumer goods and medical devices

Industry Recognition from
Peers and Customers

Industry Standards

LEAD AND DRIVE INDUSTRY DEVELOPMENT ACTIVITIES

VXI Consortium	PRESIDENT
LXI Consortium	CO-FOUNDER
Western Region Strain Gauge Board	BOARD MEMBER
VITA Technical Committee	ACTIVE MEMBER
IVI Foundation	ACTIVE MEMBER
PCI-sig	ACTIVE MEMBER
PXISA	ACTIVE MEMBER
Structural Dynamics Research Consortium	SPONSOR MEMBER

Who Relies On Our Products

**AEROSPACE & DEFENSE / POWER & ENERGY GENERATION
RF & MICROWAVE / TRANSPORTATION / CIVIL ENGINEERING**

AAI	FEV Engine
American Axle	Ford Motors
BAE Systems	General Electric
BNSF	General Dynamics
Boeing	General Motors
Bose	Hamilton Sundstrand
Broadcom	Harris Corporation
Cambridge Systems	Hitachi
Caterpillar	Honda
Cenco	Honeywell
Delphi	Indra
Detroit Diesel	Intel
DFAS	ITT Aerospace
DME	Jabil
EADS	Jacobs Technology
Eaton	KAPL
FAA	Kirby Risk
Ferguson	Knolls Atomic Power

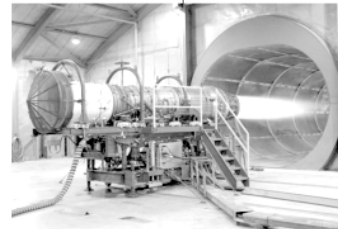

Who Relies On Our Products

**AEROSPACE & DEFENSE / POWER & ENERGY GENERATION
RF & MICROWAVE / TRANSPORTATION / CIVIL ENGINEERING**

Korea Aerospace
LMCO
Mack Trucks
Man Tech
MBDA
MDS Aero
Motorola
MTS Systems
MTU Aero Engines
NASA
NUWC
Nicom International
Northrop Grumman
NREL
Otis Elevator
Pratt & Whitney
Raytheon
RIM

Robert Bosch
Rockwell Automation
Rolls Royce
Sandia National Labs
Selex Galileo
Siemens
Solar Turbines
Sytronics
Techspace Aero
Tecumseh
Teradyne
Textron
Trane
US Army
US Navy
USAF
Vought
Westinghouse

Precision Measurement Capabilities

VTI Instruments is the only company capable of delivering **PRECISION MEASUREMENT CAPABILITIES** across all of the following technical disciplines:

Scalable Signal Switching and Routing

Switching core for virtually all automated test systems worldwide

Digital Multimeters and Voltmeters

One of only 4 companies worldwide delivering 7 ½ digit DMM capability

Comprehensive Multifunction Signal Generation and Measurement

One of the top 3 modular instrumentation companies worldwide

Temperature, Frequency, Pressure, Position, and Voltage

One of top 3 companies worldwide for temperature and voltage accuracy

Fatigue, Stress, and Load

One of the top 2 companies worldwide for precision stress and bridge

Dynamic Signal Analysis / Noise Vibration Harshness

Recognized gold standard delivering accuracy, reliability, and repeatability

PRECISION MODULAR INSTRUMENTATION
